Abstract

The article presents the results of studying the fauna of Lepidoptera in the North Kazakhstan region in the field seasons of 2019-2021. The annotated list includes 219 species, including 37 species given for the first time for the North Kazakhstan region.

Keywords

North Kazakhstan region, Lepidoptera, fauna, new data

Introduction

Previously published lists of Lepidoptera of the North Kazakhstan region included 520 species of butterflies and moths (Knyazev 2015; Knyazev and Zuban 2016; 2019). In the field seasons of 2019-2021, in order to study the distribution, as well as clarify the species composition of Lepidoptera, the authors conducted additional collections in the northeastern, central and northwestern parts of the region. Dur-

ing the specified period, 219 species of Lepidoptera were caught, including 37 species that were recorded for this region for the first time. These materials formed the basis for writing this article.

Material and methods

To collect material, the authors used standard methods: catching with an scoop-net; light trap (mercury lamp DRV-250); smelling baits from fermented beer and jam.

The systematic position of taxa in the list is given in accordance with the new edition of the Catalog of Lepidoptera of Russia (Sinev 2019). All specimens are stored in the collections of authors. New species for the territory of the region, marked with an asterisk (*).

Below is the list of collection points (Fig. 1):

1. Shandak – Shandak village and its environs, 54°26'08,3"N, 70°44'49,80"E;
2. Ekaterinovka – 0.5 km SE of Ekaterinovka village, 54°35'26.8"N 66°42'32.7"E;
3. Presnovka – 0.2 km NW of Presnovka village, 54°40'40.7"N 67°09'37.7"E;
4. Meshanskiy forest – forest park near the Petropavlovsk city, 54°55'45.3"N 69°08'17.3"E;
5. Ivanovka – Ivanovka village, 54°39'32,07"N, 68°55'48,30"E;
6. Budennoe – 0.2 km NW of Budennoye village, 54°37'05.1"N 66°30'09.7"E;
7. Tarangul – 0.7 km SW of Tarangul village, 54°10'10.9"N 68°26'05.1"E;
8. Dvinsk – Dvinsk village, 54°08'47.1"N 68°25'47.1"E;
9. Cherunovka – Cherunovka village, 54°02'43.9"N 67°58'51.3"E;
10. Beskuduk – Beskuduk village, 54°03'23.5"N 68°04'55.0"E;
11. Novouzenka – Novouzenka village, 54°02'39.2"N 68°39'05.3"E;
12. Korneevka – Korneevka village, 53°59'43.5"N 68°24'19.4"E;
13. Dzhambul – Dzhambul village, 53°50'21.5"N 68°32'31.5"E;
14. Iversk – Iversk village, 54°08'58.3"N 68°37'16.0"E.
